Program on PHP to connect MySQL database for CURD operations.

- **Problem Statement:**

  Program on PHP to connect MySQL database for CURD operations.

- **Steps to Solve:**
  a. **Set Up the Database:** Create a MySQL database and a table for storing the data.
  b. **Connect to the MySQL Database using PHP:** Write a PHP script to connect to the MySQL database using **MySQLi** or **PDO**
  c. **Create the CRUD Operations:**
      i. **Create (Insert) Records**
      ii. **Read (Retrieve) Records:**
      iii. **Update Records:**
      iv. **Delete Records:**
  d. **Close the Connection:** After the operations, close the connection to the database:

- # Output:

localhost/user.php

localhost says

Registered successfully

OK

localhost/user.php

localhost says

Updated successfully

OK

localhost/user.php
